9. AGE OF HOME AND FEDERAL LEAD BASED PAINT: Title X, Section 1018, the Residential Lead-Based Paint Hazard Act of 1992 (the Act), requires the disclosure of certain information regarding lead-based paint and lead-based paint hazards in connection with the sale of residential real property. Unless otherwise exempt, the Act applies only to housing constructed prior to 1978. A Seller of pre-1978 housing is required to disclose to the Buyer, based upon the Seller's actual knowledge, all known lead-based paint hazards in the Property and provide the Buyer with any available reports in the Seller's possession relating to lead-based paint or lead-based paint hazards applicable to the Property. The Seller, however, is not required to conduct or pay for any lead-based paint risk assessment or inspection.

At the time that the offer to purchase is entered into by the Buyer, the Seller is required to provide the Buyer with the EPA pamphlet entitled "Protect Your Family From Lead In Your Home" and a "Disclosure of Information on Lead-Based Paint and Lead-Based Paint Hazards" form (GCAAR #500). The Seller is required under the Act to provide the Buyer with a ten (10) day time period (or other mutually agreeable time period) for the Buyer, at the Buyer's expense, to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards unless the Buyer waives such assessment or inspection by indicating such waiver on the Lead-Based Paint Disclosure form. Seller and any agent involved in the transaction are required to retain a copy of the completed Lead-Based Paint Disclosure form for a period of three (3) years following the date of the settlement.

A SELLER WHO FAILS TO GIVE THE REQUIRED LEAD-BASED PAINT DISCLOSURE FORM AND EPA PAMPHLET MAY BE LIABLE UNDER THE ACT FOR THREE TIMES THE AMOUNT OF DAMAGES AND MAY BE SUBJECT TO BOTH CIVIL AND CRIMINAL PENALTIES.

Seller represents and warrants to Buyer, broker(s), broker(s)' agents and subagents, intending that they rely upon such warranty and representation, that the property: (Seller to initial applicable line): JA/IA was constructed prior to 1978 OR _____, was not constructed prior to 1978 OR _____ the date of construction is uncertain. If the Property was constructed prior to 1978 or if the date of construction is uncertain, as indicated by Seller's initial above, Seller and Buyer mutually agree that the requirements of the Act shall apply to the sale of the Property. Seller and Buyer acknowledge that the real estate brokers and salespersons involved in the sale of the Property have no duty to ascertain or verify the date of construction and assume no such duty or responsibility. Seller and Buyer agree, represent and warrant, each unto the other, that no binding and enforceable contract shall be deemed to exist or to have been formed unless the requirements of the Act have been complied with prior to the execution of this Contract by Seller and Buyer. Seller and Buyer represent and warrant that each intended, as a material term of the offer and acceptance that the requirements of the Act be complied with as an express condition of the formation of a binding and enforceable contract by and between the parties. Buyer and Seller acknowledge by their respective initials below that they have read and understand the provisions of this Paragraph 9.

10. DISCLOSURE/DISCLAIMER STATEMENT: A property owner may be exempt from Maryland Residential Property Disclosure Act as defined in the Maryland Residential Property Disclosure and Disclaimer Statement. Is Seller exempt from the Maryland Residential Property Disclosure Act? ~~Yes~~ No. If no, see attached Maryland Residential Disclosure and Disclaimer Statement. If yes, reason for exemption: _____

11. SMOKE DETECTORS: Pursuant to Montgomery County Code, the Seller is required to have working smoke detectors on all levels with bedrooms. In addition, Maryland law requires the following disclosure: **This residential dwelling unit contains alternating current (AC) electric service. In the event of a power outage, an alternating current (AC) powered smoke detector will not provide an alarm. Therefore, the Buyer should obtain a dual-powered smoke detector or a battery-powered smoke detector.** Does this Property have either a dual-powered smoke detector or a battery-powered smoke detector?

Yes ~~Yes~~

Certain municipalities have requirements exceeding those of Montgomery County; see municipality website for additional disclosures.

12. HISTORIC PRESERVATION:

Check questionable properties' status with the Montgomery County Historic Preservation Commission (301-563-3400) or go to <http://www.mcparkandplanning.org/historic/index.shtm>, to check applicability. Potential Buyers of property located in the **City of Rockville** should be advised that structures that are 50 years old or older, or which may be otherwise significant according to criteria established by the Rockville Historic District Commission, should be notified prior to purchase that demolition and building permit applications for substantial alteration will trigger an evaluation and approval process. This process may result in the property being designated a historic site, and if so, any exterior alterations must be reviewed and approved.

Has the Property been designated as an historic site in the master plan for historic preservation? ~~Yes~~ No.
Is the Property located in an area designated as an historic district in that plan? ~~Yes~~ No.
Is the Property listed as an historic resource on the County location atlas of historic sites? ~~Yes~~ No.
Seller has provided the information required of Sec 40-12A as stated above, and the Buyer understands that special restrictions on land uses and physical changes may apply to this property. To confirm the applicability of this County Code (Sec 40-12A) and the restrictions on land uses and physical changes that may apply, contact the staff of the County Historic Preservation Commission, 301-563-3400. If the property is located within a local municipality, contact the local government to verify whether the property is subject to any additional local ordinances.

13. MARYLAND FOREST CONSERVATION LAWS:

A. Forest Conservation Law: The Buyer is notified that the cutting, clearing, and grading of more than 5,000 square feet of forest or any champion tree on the Property is subject to the requirements of the **Forest Conservation Law**. The Buyer is required to comply with the Forest Conservation Law, Chapter 22A of the Montgomery County Code. In order to assure compliance with the law, the Buyer is notified of the need to contact the **Countywide Environmental Planning Division** of the Maryland-National Capital Park and Planning Commission (**M-NCPPC**), whether it means obtaining a written exemption from the Forest Conservation Laws from **M-NCPPC** or obtaining approval of a Natural Resource Inventory/Forest Stand Delineation Plan, Forest Conservation Plan, or Tree Save Plan prior to cutting, clearing, and grading of more than 5,000 square feet of forest, obtaining a grading or sediment control permit, or developing the Property. Further, Seller represents and warrants that no activities have been undertaken on the Property in violation of the Forest Conservation Law and that if such activities have occurred in violation of the applicable law, that Seller has paid all of the penalties imposed and taken all of the corrective measures requested by **M-NCPPC**.

B. Forest Conservation Easements: Seller represents and warrants that the Property ~~is~~ is not currently subject to a recorded Category I or Category II Forest Conservation Easement, Management Agreement or an approved Forest Conservation Plan, Tree Save Plan, or any other plan requiring the protection of natural areas, or any other pending obligation binding the owner of the Property under Forest Conservation Law requirements. If the Property is encumbered by any such easement or plan, attach a copy of the plat or recorded document (if available).

14. MODERATELY-PRICED DWELLING UNIT: Is the Property part of the Moderately-Priced Dwelling Unit Program in Montgomery County? ~~Yes~~ No. In City of Rockville? ~~Yes~~ No. If yes to either question, Seller to indicate month and year of initial offering: _____. If initial offering is after March 20, 1989, the prospective Buyer and Seller should contact the appropriate jurisdictional agency to ascertain the legal buying and selling restrictions on the Property.

15. UNDERGROUND STORAGE TANK: For information regarding Underground Storage Tanks and the procedures for their removal or abandonment, contact the Maryland Department of the Environment. www.mde.state.md.us
Does the Property contain an unused underground storage tank?

~~Yes~~ Unknown. If yes, explain when, where and how it was abandoned: _____

16. TAKOMA PARK RENTAL HOUSING LAWS: The sale of any residential rental property located within the city limits of Takoma Park must contain a notice concerning the city's rental laws along with copies of certain rent reports and rental licensing inspection reports. **GCAAR Form #1357** recites the applicable laws and identifies the reports that must be attached. This property ~~is~~ is not subject to the Takoma Park Rental Housing Law Notice requirements.

17. AGRICULTURAL ZONE DISCLOSURE NOTICE: Sellers of Montgomery County properties that are located in, adjoin or confront an area that is zoned agricultural must make certain disclosures to potential Buyers. These disclosures are contained in **GCAAR Form #1361**, which must be provided to potential Buyers prior to entering into a Contract for the purchase and sale of a property that is subject to this Agricultural Zone Disclosure requirement. Additional information can be obtained at http://www.mcmmaps.org/notification/agricultural_lands.aspx. This property ~~is~~ is not subject to the Agricultural Zone Disclosure Notice requirements.

18. NOTICE CONCERNING CONSERVATION EASEMENTS: If the Property is encumbered by a Conservation Easement as defined in Section 10-705 of the Real Property Article, Annotated Code of Maryland, the contract must contain a notice concerning the easement, which is contained in an attached addendum. This Paragraph does not apply to the sale of property in an action to foreclose a mortgage or deed of trust. (If the Property is encumbered by a Conservation Easement: See Conservation Easement Addendum **GCAAR Form #1359**). This property ~~is~~ is not subject to a Conservation Easement.

19. GROUND RENT: If the Property is subject to ground rent and the ground rent is not timely paid, the ground lease holder (i.e., the person to whom the ground rent is payable) may bring an action under Section 8-402.3 of the Real Property Article, Annotated Code of Maryland. As a result of this action, a lien may be placed upon the property. If the Property is subject to ground rent, Sections 14-116 and 14-116.1 of the Real Property Article provide the purchaser, upon obtaining ownership of the Property, with certain rights and responsibilities relative to the ground rent. (If the Property is subject to ground rent: See **Property Subject to Ground Rent Addendum, GCAAR Form #1360.**) This property ~~is~~ is not subject to Ground Rent.

20. AIRPORTS AND HELIPORTS: The following list of airports and heliports includes those in Montgomery County and the surrounding area that may be within a five-mile radius of the Property. This list was compiled from data provided by the Washington Airports District Office of the Federal Aviation Administration and was current as of 4/1/07. Buyer should be aware of the fact that most properties in Montgomery County are within five (5) miles of an airport or heliport installation. NOTICE TO BUYER AND SELLER OF BUYER'S RIGHTS AND SELLER'S OBLIGATIONS UNDER MARYLAND'S SINGLE FAMILY RESIDENTIAL PROPERTY CONDITION DISCLOSURE LAW

ADDENDUM # _____ dated _____ to the Contract of Sale dated _____
between Buyer the undersigned
and Seller Jeffrey and Terri L Annis
for Property known as 5219 Goddard Road, Bethesda, MD 20814-1303

NOTE: This notice does not apply to: (1) the initial sale of single family residential property which has never been occupied, or for which a certificate of occupancy has been issued within one year prior to the date of the Contract; (2) a transfer that is exempt from the transfer tax under Subsection 13-207 of the Tax-Property Article, except land installments contracts of sale under Subsection 13-207(a)(11) of the Tax-Property Article and options to purchase real property under Subsection 13-207(a)(12) of the Tax-Property Article; (3) a sale by a lender or an affiliate or subsidiary of a lender that acquired the real property by foreclosure or deed in lieu of foreclosure; (4) a sheriff's sale, tax sale, or sale by foreclosure, partition or by court appointed trustee; (5) a transfer by a fiduciary in the course of the administration of a decedent's estate, guardianship, conservatorship, or trust; (6) a transfer of single family residential real property to be converted by the buyer into a use other than residential use or to be demolished; or (7) a sale of unimproved real property.

Section 10-702 of the Real Property Article of the Annotated Code of Maryland ("Section 10-702") requires that a seller of a single family residential property ("the property") deliver to each buyer, on or before entering into a contract of sale, on a form published and prepared by the Maryland Real Estate Commission, **EITHER:**

- (A) A written property condition disclosure statement listing all defects including latent defects, or information of which the seller has actual knowledge in relation to the following:
 - (i) Water and sewer systems, including the source of household water, water treatment systems, and sprinkler systems;
 - (ii) Insulation;
 - (iii) Structural systems, including the roof, walls, floors, foundation and any basement;
 - (iv) Plumbing, electrical, heating, and air conditioning systems;
 - (v) Infestation of wood-destroying insects;
 - (vi) Land use matters;
 - (vii) Hazardous or regulated materials, including asbestos, lead-based paint, radon, underground storage tanks, and licensed landfills;
 - (viii) Any other material defects, including latent defects, of which the seller has actual knowledge;
 - (ix) Whether the smoke detectors will provide an alarm in the event of a power Outage; and
 - (x) **If the property relies on the combustion of a fossil fuel for heat, ventilation, hot water, or clothes dryer operation, whether a carbon monoxide alarm is installed on the property.**

Latent defects under Section 10-702 means material defects in real property or an improvement to real property that:

- (i) A buyer would not reasonably be expected to ascertain or observe by a careful visual inspection, and
- (ii) Would pose a threat to the health or safety of the buyer or an occupant of the property, including a tenant or invitee of the buyer;

OR

- (B) A written disclaimer statement providing that:
 - (i) Except for latent defects of which the seller has actual knowledge, the seller makes no representations or warranties as to the condition of the real property or any improvements on the real property; and
 - (ii) The buyer will be receiving the real property "as is," with all defects, including latent defects, that may exist, except as otherwise provided in the contract of sale of the property.

MARYLAND RESIDENTIAL PROPERTY DISCLOSURE AND DISCLAIMER STATEMENT

Property Address: 5219 Goddard Road, Bethesda, MD 20814-1303

Legal Description: Lot/Unit 13 & Pt 14 Block H Subdivision Battery Park

NOTICE TO SELLER AND PURCHASER

Section 10-702 of the Real Property Article, *Annotated Code of Maryland*, requires the owner of certain residential real property to furnish to the purchaser either (a) a RESIDENTIAL PROPERTY DISCLAIMER STATEMENT stating that the owner is selling the property "as is" and makes no representations or warranties as to the condition of the property or any improvements on the real property, except as otherwise provided in the contract of sale, or in a listing of latent defects; or (b) a RESIDENTIAL PROPERTY DISCLOSURE STATEMENT disclosing defects or other information about the condition of the real property actually known by the owner. Certain transfers of residential property are excluded from this requirement (see the exemptions listed below).

10-702. EXEMPTIONS. The following are specifically excluded from the provisions of §10-702:

1. The initial sale of single family residential real property:
 - A. that has never been occupied; or
 - B. for which a certificate of occupancy has been issued within 1 year before the seller and buyer enter into a contract of sale;
2. A transfer that is exempt from the transfer tax under §13-207 of the Tax-Property Article, except land installment contracts of sales under §13-207(a) (11) of the Tax-Property Article and options to purchase real property under §13-207(a)(12) of the Tax-Property Article;
3. A sale by a lender or an affiliate or subsidiary of a lender that acquired the real property by foreclosure or deed in lieu of foreclosure;
4. A sheriff's sale, tax sale, or sale by foreclosure, partition, or by court appointed trustee;
5. A transfer by a fiduciary in the course of the administration of a decedent's estate, guardianship, conservatorship, or trust;
6. A transfer of single family residential real property to be converted by the buyer into use other than residential use or to be demolished; or
7. A sale of unimproved real property.

Section 10-702 also requires the owner to disclose information about latent defects in the property that the owner has actual knowledge of. The owner must provide this information even if selling the property "as is." "Latent defects" are defined as: Material defects in real property or an improvement to real property that:

- (1) A purchaser would not reasonably be expected to ascertain or observe by a careful visual inspection of the real property; and
- (2) Would pose a direct threat to the health or safety of:
 - (i) the purchaser; or
 - (ii) an occupant of the real property, including a tenant or invitee of the purchaser.

MARYLAND RESIDENTIAL PROPERTY DISCLOSURE STATEMENT

NOTICE TO OWNERS: Complete and sign this statement only if you elect to disclose defects, including latent defects, or other information about the condition of the property actually known by you; otherwise, sign the Residential Property Disclaimer Statement. You may wish to obtain professional advice or inspections of the property; however, you are not required to undertake or provide any independent investigation or inspection of the property in order to make the disclosure set forth below. The disclosure is based on your personal knowledge of the condition of the property at the time of the signing of this statement.

NOTICE TO PURCHASERS: The information provided is the representation of the Owners and is based upon the actual knowledge of Owners as of the date noted. Disclosure by the Owners is not a substitute for an inspection by an independent home inspection company, and you may wish to obtain such an inspection. The information contained in this statement is not a warranty by the Owners as to the condition of the property of which the Owners have no knowledge or other conditions of which the Owners have no actual knowledge.

MARYLAND RESIDENTIAL PROPERTY DISCLOSURE AND DISCLAIMER ACT:
THE TIMES ... THEY ARE A-CHANGIN'!

By: Alvin C. Monshower, Jr., Esq.
Monshower, Miller & Magrogan, LLP

Effective October 1, 2005, ... a seller of residential real property - unless otherwise exempt [is] required to complete and deliver to the purchaser a disclosure or disclaimer statement.

Under the law, a seller - whether the seller elects to give disclosure or disclaimer - [is] required to disclose to the purchaser any latent defects of which the seller has actual knowledge.

A latent defect is defined as material defects in real property or an improvement to real property that a purchaser would not reasonably be expected to ascertain or observe by a careful visual inspection of the real property and which would pose a direct threat to the health or safety of the purchaser or an occupant of the real property, including a tenant or invitee of the purchaser.

It is important to note that latent defect does not mean any and all defects located in the property. To the contrary, as the quoted language above indicates, a latent defect required to be disclosed by a seller under the new law is limited to only those which: 1) a purchaser would not be reasonably expected to ascertain or observe themselves by a careful visual inspection of the property; and 2) which would pose a direct threat to the health or safety of the purchaser or any occupant of the property, including a tenant or invitee.

It is equally important to understand that the seller continues to have no obligation to ascertain such latent defects. Instead, the seller's disclosure is based, as it presently is based, as to those latent defects of which the seller has actual knowledge.

The new law brings Maryland within the majority rule of most states as to the duty of a seller to disclose latent defects. ... importantly, a seller may complete a disclosure or disclaimer statement after October 1, 2005 and have no actual knowledge regarding any such latent defects. However, during the course of various inspection contingencies (such as a radon inspection or home inspection contingency), the seller may acquire actual knowledge of a latent defect as defined under the new law. In that event, the seller must then complete a new revised disclosure and disclaimer statement to deliver to future contract purchasers of the property which discloses such latent defects of which the seller now has actual knowledge.

NOTWITHSTANDING THE REQUIREMENTS OF THE LAW, REALTORS® CONTINUE TO REMAIN RESPONSIBLE TO DISCLOSE TO THE PURCHASER ANY LATENT DEFECT OF WHICH THE REALTOR® HAS ACTUAL KNOWLEDGE OR OF WHICH THE REALTOR® SHOULD HAVE KNOWN. IN OTHER WORDS, WHETHER THE SELLER GIVES DISCLOSURE OR DISCLAIMER UNDER THE NEW LAW, IF YOU, AS A REALTOR®, ARE AWARE OF A LATENT DEFECT WHICH WOULD POSE A THREAT TO THE HEALTH OR SAFETY OF THE PURCHASER OR ANY OCCUPANT OF THE PROPERTY, YOU WOULD REMAIN RESPONSIBLE UNDER THE MARYLAND REAL ESTATE BROKERS ACT TO DISCLOSE SUCH FACT TO A PURCHASER NOTWITHSTANDING ANY FAILURE ON THE PART OF THE SELLER TO DISCLOSE SUCH FACT ON THE REVISED DISCLOSURE AND DISCLAIMER FORM.

(Adapted by Jeff Annis from an article by Alvin C. Monshower, Jr., Monshower, Miller & Magrogan, LLP, general legal counsel for the Maryland Association of REALTORS®, Inc. This article is intended to be a general discussion of the topic. As with all legal matters, the reader should consult with competent legal counsel regarding any actual situations or questions.)

Disclosure of Information on Lead-Based Paint and/or Lead-Based Paint Hazards
Federal Lead Warning Statement

A buyer/tenant of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may contain lead-based paint and that exposure to lead from lead-based paint, paint chips or lead paint dust may place young children at risk of developing lead poisoning if not managed properly. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller/landlord of any interest in residential real property is required to disclose to the buyer/tenant the presence of known lead-base paint hazards and to provide the buyer/tenant with any information on lead-based paint hazards from risk assessments or inspections in the seller's/landlord's possession. A tenant must receive a federally approved pamphlet on lead poisoning prevention. It is recommended that a buyer conduct a risk assessment or inspection for possible lead-based paint hazards prior to purchase.

Seller's/Landlord's Disclosure

(a) Presence of lead-based paint and/or lead-based paint hazards (initial (i) or (ii) below):

(i) / Known lead-based paint and/or lead-based paint hazards are present in the housing (explain).

(ii) A / RA Seller/Landlord has no knowledge of lead-based paint and/or lead-based paint hazards in the housing.

(b) Records and reports available to the seller (initial (i) or (ii) below):

(i) / Seller/Landlord has provided the purchaser/tenant with all available records and reports pertaining to lead- based paint and/or lead-based paint hazards in the housing (list documents below).

(ii) A / RA Seller/Landlord has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing.

Buyer's/Tenant's Acknowledgment (initial)

(c) / Buyer/Tenant has received copies of all information listed in section (b)(i) above, if any.

(d) / Buyer/Tenant has received the pamphlet *Protect Your Family from Lead In Your Home*.

(e) **Buyer** has (initial (i) or (ii) below):

(i) / received a 10-day opportunity (or mutually agreed upon period) to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards; or

(ii) / waived the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards.

Agent's Acknowledgment (initial)

(f) A Agent has informed the Seller/Landlord of the Seller's/Landlord's obligations under 42 U.S.C. 4852(d) and is aware of his/her responsibility to ensure compliance.

1. Phase in value comes from the data base at the Maryland Department of Assessments and Taxation <http://www.dat.state.md.us/>, Real Property Data Search. The phase in value is for the next fiscal year, if available, otherwise the phase in value is for current fiscal year.
2. Tax rates come from the current property tax bill, which also may include several non-tax charges, at the web page of the County Government's Department of Finance: <http://www.montgomerycountymd.gov/finance>. Look for a link to "Pay or view your property tax bill on line".
3. County Property Tax is the sum of the General Fund tax and several special fund taxes.
4. All non-tax charges (for example Solid Waste, Water Quality Protection, Bay Restoration Fund, WSSC) are the charges in the current fiscal year. These charges may be different in the next fiscal year.
5. You must update the estimate for the property taxes and other non-tax charges
 - a. Every July 1, because the tax rates, phase-in values, and other non-tax charges will or may change;
AND ALSO
 - b. In early January if the calculation used the phase-in value for the current fiscal year instead of the phase-in value for the next fiscal year, because SDAT had not yet specified the phase in value for the next fiscal year. This occurs in the period July 1 - early January in the third year of the three year assessment cycle.

Understanding Whom Real Estate Agents Represent

Before you decide to sell or buy or rent a home you need to consider the following information:

Agents Who Represent the Seller

Seller's Agent: A seller's agent works for the real estate company that lists and markets the property for the sellers, or landlords, and exclusively represents the sellers or landlords. That means that he or she may assist the buyer or tenant in purchasing or renting the property, but his or her duty of loyalty is only to the sellers or landlords. The seller pays the seller's agent's fees as specified in a written listing agreement.

Cooperating Agent: A cooperating agent works for a real estate company different from the company for which the seller's agent works. The cooperating agent can assist a buyer or tenant in purchasing or renting a property, but his or her duty of loyalty is only to the sellers or landlords. The cooperating agent's fee is paid by the sellers or landlords through the seller's agent's company.

Agents Who Represent the Buyer

Presumed Buyer's Agent (no written agreement): When a person goes to a real estate agent for assistance in finding a home to buy or rent, the agent is presumed to be representing the buyer and can show the buyer properties that are *not* listed by the agent's real estate company. A presumed buyer's agent may *not* make or prepare an offer or negotiate a sale for the buyer. The buyer does *not* have an obligation to pay anything to the presumed agent.

If for any reason the buyer does not want the agent to represent him or her as a presumed agent, either *initially* or *at any time*, the buyer can decline or terminate a presumed agency relationship simply by saying so.

Buyer's Agent (by written agreement): A buyer or tenant may enter into a written contract with a real estate agent which provides that the agent will represent the buyer or tenant in locating a property to buy or rent. The agent is then known as the buyer's agent. That agent assists the buyer in evaluating properties and preparing offers, and negotiates in the best interests of the buyer or tenant. The agent's fee is paid according to the written agreement between the agent and the buyer or tenant. If you as a buyer or tenant wish to have an agent represent you exclusively, you must enter into a written buyer agency agreement.

Dual Agents

The possibility of **dual agency** arises when the buyer's agent and the seller's agent both work for the same real estate company, and the buyer is interested in property listed by that company. The real estate company, or broker, is called the "dual agent". Dual agents do not act exclusively in the interests of either the seller or buyer, or landlord or tenant, and therefore cannot give undivided loyalty to either party. There may be a conflict of interest because the interests of the seller and buyer may be different or adverse.

If both seller and buyer, or landlord and tenant, agree to dual agency by signing a Consent For Dual Agency form, then the real estate company (the "dual agent") will assign one agent to represent the seller or landlord (the seller's "intra-company agent") and another agent to represent the buyer or tenant (the buyer's "intra-company agent"). Intra-company agents may provide the same services to their clients as exclusive seller's or buyer's agents, including advising their clients as to price and negotiation strategy, provided the clients have both consented to be represented by dual agency.

Simple Steps To Protect Your Family From Lead Hazards

If you think your home has high levels of lead:

- ◆ Get your young children tested for lead, even if they seem healthy.
- ◆ Wash children's hands, bottles, pacifiers, and toys often.
- ◆ Make sure children eat healthy, low-fat foods.
- ◆ Get your home checked for lead hazards.
- ◆ Regularly clean floors, window sills, and other surfaces.
- ◆ Wipe soil off shoes before entering house.
- ◆ Talk to your landlord about fixing surfaces with peeling or chipping paint.
- ◆ Take precautions to avoid exposure to lead dust when remodeling or renovating (call 1-800-424-LEAD for guidelines).
- ◆ Don't use a belt-sander, propane torch, high temperature heat gun, scraper, or sandpaper on painted surfaces that may contain lead.
- ◆ Don't try to remove lead-based paint yourself.

Are You Planning To Buy, Rent, or Renovate a Home Built Before 1978?

Many houses and apartments built before 1978 have paint that contains high levels of lead (called lead-based paint). Lead from paint, chips, and dust can pose serious health hazards if not taken care of properly.

OWNERS, BUYERS, and RENTERS are encouraged to check for lead (see page 6) before renting, buying or renovating pre-1978 housing.

Federal law requires that individuals receive certain information before renting, buying, or renovating pre-1978 housing:

LANDLORDS have to disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a disclosure about lead-based paint.

SELLERS have to disclose known information on lead-based paint and lead-based paint hazards before selling a house. Sales contracts must include a disclosure about lead-based paint. Buyers have up to 10 days to check for lead.

RENOVATORS disturbing more than 2 square feet of painted surfaces have to give you this pamphlet before starting work.

IMPORTANT!

Lead From Paint, Dust, and Soil Can Be Dangerous If Not Managed Properly

- FACT:** Lead exposure can harm young children and babies even before they are born.
- FACT:** Even children who seem healthy can have high levels of lead in their bodies.
- FACT:** People can get lead in their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- FACT:** People have many options for reducing lead hazards. In most cases, lead-based paint that is in good condition is not a hazard.
- FACT:** Removing lead-based paint improperly can increase the danger to your family.

If you think your home might have lead hazards, read this pamphlet to learn some simple steps to protect your family.

Lead Gets in the Body in Many Ways

Childhood lead poisoning remains a major environmental health problem in the U.S.

Even children who appear healthy can have dangerous levels of lead in their bodies.

People can get lead in their body if they:

- ◆ Breathe in lead dust (especially during renovations that disturb painted surfaces).
- ◆ Put their hands or other objects covered with lead dust in their mouths.
- ◆ Eat paint chips or soil that contains lead.

Lead is even more dangerous to children under the age of 6:

- ◆ At this age children's brains and nervous systems are more sensitive to the damaging effects of lead.
- ◆ Children's growing bodies absorb more lead.
- ◆ Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Lead is also dangerous to women of childbearing age:

- ◆ Women with a high lead level in their system prior to pregnancy would expose a fetus to lead through the placenta during fetal development.

Lead's Effects

It is important to know that even exposure to low levels of lead can severely harm children.

In children, lead can cause:

- ◆ Nervous system and kidney damage.
- ◆ Learning disabilities, attention deficit disorder, and decreased intelligence.
- ◆ Speech, language, and behavior problems.
- ◆ Poor muscle coordination.
- ◆ Decreased muscle and bone growth.
- ◆ Hearing damage.

While low-lead exposure is most common, exposure to high levels of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults too.

In adults, lead can cause:

- ◆ Increased chance of illness during pregnancy.
- ◆ Harm to a fetus, including brain damage or death.
- ◆ Fertility problems (in men and women).
- ◆ High blood pressure.
- ◆ Digestive problems.
- ◆ Nerve disorders.
- ◆ Memory and concentration problems.
- ◆ Muscle and joint pain.

Where Lead-Based Paint Is Found

In general, the older your home, the more likely it has lead-based paint.

Many homes built before 1978 have lead-based paint. The federal government banned lead-based paint from housing in 1978. Some states stopped its use even earlier. Lead can be found:

- ◆ In homes in the city, country, or suburbs.
- ◆ In apartments, single-family homes, and both private and public housing.
- ◆ Inside and outside of the house.
- ◆ In soil around a home. (Soil can pick up lead from exterior paint or other sources such as past use of leaded gas in cars.)

Checking Your Family for Lead

Get your children and home tested if you think your home has high levels of lead.

To reduce your child's exposure to lead, get your child checked, have your home tested (especially if your home has paint in poor condition and was built before 1978), and fix any hazards you may have. Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect high levels of lead. Blood tests are usually recommended for:

- ◆ Children at ages 1 and 2.
- ◆ Children or other family members who have been exposed to high levels of lead.
- ◆ Children who should be tested under your state or local health screening plan.

Your doctor can explain what the test results mean and if more testing will be needed.

Identifying Lead Hazards

Lead-based paint is usually not a hazard if it is in good condition, and it is not on an impact or friction surface, like a window. It is defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter, or more than 0.5% by weight.

Deteriorating lead-based paint (peeling, chipping, chalking, cracking or damaged) is a hazard and needs immediate attention. It may also be a hazard when found on surfaces that children can chew or that get a lot of wear-and-tear, such as:

- ◆ Windows and window sills.
- ◆ Doors and door frames.
- ◆ Stairs, railings, banisters, and porches.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Dust also forms when painted surfaces bump or rub together. Lead chips and dust can get on surfaces and objects that people touch. Settled lead dust can re-enter the air when people vacuum, sweep, or walk through it. The following two federal standards have been set for lead hazards in dust:

- ◆ 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors.
- ◆ 250 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills.

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. The following two federal standards have been set for lead hazards in residential soil:

- ◆ 400 parts per million (ppm) and higher in play areas of bare soil.
- ◆ 1,200 ppm (average) and higher in bare soil in the remainder of the yard.

The only way to find out if paint, dust and soil lead hazards exist is to test for them. The next page describes the most common methods used.

Lead from paint chips, which you can see, and lead dust, which you can't always see, can both be serious hazards.

Checking Your Home for Lead

Just knowing that a home has lead-based paint may not tell you if there is a hazard.

You can get your home tested for lead in several different ways:

- ◆ A paint **inspection** tells you whether your home has lead-based paint and where it is located. It won't tell you whether or not your home currently has lead hazards.
- ◆ A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards.
- ◆ A combination risk assessment and inspection tells you if your home has any lead hazards and if your home has any lead-based paint, and where the lead-based paint is located.

Hire a trained and certified testing professional who will use a range of reliable methods when testing your home.

- ◆ Visual inspection of paint condition and location.
- ◆ A portable x-ray fluorescence (XRF) machine.
- ◆ Lab tests of paint, dust, and soil samples.

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency (see bottom of page 11) for more information, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.

Home test kits for lead are available, but may not always be accurate. Consumers should not rely on these kits before doing renovations or to assure safety.

What You Can Do Now To Protect Your Family

If you suspect that your house has lead hazards, you can take some immediate steps to reduce your family's risk:

- ◆ If you rent, notify your landlord of peeling or chipping paint.
- ◆ Clean up paint chips immediately.
- ◆ Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner or a cleaner made specifically for lead. REMEMBER: NEVER MIX AMMONIA AND BLEACH PRODUCTS TOGETHER SINCE THEY CAN FORM A DANGEROUS GAS.
- ◆ Thoroughly rinse sponges and mop heads after cleaning dirty or dusty areas.
- ◆ Wash children's hands often, especially before they eat and before nap time and bed time.
- ◆ Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- ◆ Keep children from chewing window sills or other painted surfaces.
- ◆ Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- ◆ Make sure children eat nutritious, low-fat meals high in iron and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

Reducing Lead Hazards In The Home

Removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

Always use a professional who is trained to remove lead hazards safely.

In addition to day-to-day cleaning and good nutrition:

- ◆ You can **temporarily** reduce lead hazards by taking actions such as repairing damaged painted surfaces and planting grass to cover soil with high lead levels. These actions (called “interim controls”) are not permanent solutions and will need ongoing attention.
- ◆ To **permanently** remove lead hazards, you should hire a certified lead “abatement” contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent removal.

Always hire a person with special training for correcting lead problems—someone who knows how to do this work safely and has the proper equipment to clean up thoroughly. Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Once the work is completed, dust cleanup activities must be repeated until testing indicates that lead dust levels are below the following:

- ◆ 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors;
- ◆ 250 $\mu\text{g}/\text{ft}^2$ for interior windows sills; and
- ◆ 400 $\mu\text{g}/\text{ft}^2$ for window troughs.

Call your state or local agency (see bottom of page 11) for help in locating certified professionals in your area and to see if financial assistance is available.

Remodeling or Renovating a Home With Lead-Based Paint

Take precautions before your contractor or you begin remodeling or renovating anything that disturbs painted surfaces (such as scraping off paint or tearing out walls):

- ◆ **Have the area tested for lead-based paint.**
- ◆ **Do not use a belt-sander, propane torch, high temperature heat gun, dry scraper, or dry sandpaper** to remove lead-based paint. These actions create large amounts of lead dust and fumes. Lead dust can remain in your home long after the work is done.
- ◆ **Temporarily move your family** (especially children and pregnant women) out of the apartment or house until the work is done and the area is properly cleaned. If you can't move your family, at least completely seal off the work area.
- ◆ **Follow other safety measures to reduce lead hazards.** You can find out about other safety measures by calling 1-800-424-LEAD. Ask for the brochure "Reducing Lead Hazards When Remodeling Your Home." This brochure explains what to do before, during, and after renovations.

If you have already completed renovations or remodeling that could have released lead-based paint or dust, get your young children tested and follow the steps outlined on page 7 of this brochure.

If not conducted properly, certain types of renovations can release lead from paint and dust into the air.

Other Sources of Lead

While paint, dust, and soil are the most common sources of lead, other lead sources also exist.

- ◆ **Drinking water.** Your home might have plumbing with lead or lead solder. Call your local health department or water supplier to find out about testing your water. You cannot see, smell, or taste lead, and boiling your water will not get rid of lead. If you think your plumbing might have lead in it:
 - Use only cold water for drinking and cooking.
 - Run water for 15 to 30 seconds before drinking it, especially if you have not used your water for a few hours.
- ◆ **The job.** If you work with lead, you could bring it home on your hands or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- ◆ Old painted **toys** and **furniture**.
- ◆ Food and liquids stored in **lead crystal** or **lead-glazed pottery or porcelain**.
- ◆ **Lead smelters** or other industries that release lead into the air.
- ◆ **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture.
- ◆ **Folk remedies** that contain lead, such as “greta” and “azarcon” used to treat an upset stomach.
